Li-Ion

47x42x29

With the same features as Roll & Comb 141 E-AU but relies on a rechargeable 18v Lithium battery power source. Designed to maintain artificial grass, it helps clean leaves, bark and other debris from the lawn while combing and lifting the pile. The lightweight design of the 141 range, with adjustable grip which facilitates use and ensures the correct operating position, makes it easy to transport and store.

## ROLL&COMB 141 E-AU
